SO WHAT IS DIFFERENT IN 2015?

In 2015 we will shift the emphasis a little to include more training in our convention because honestly folks, just voting isn't good enough anymore.

We elect people based on their campaign promises only to see them broken and compromised on the very first votes. The people rejected amnesty overwhelmingly in November. In December it seems the politicians have not. Christmas trees bills loaded with hidden goodies is not what is needed. We believe more of the same will bring more of the same.

Principles and Opportunity created the American Dream, while politics and central planning are destroying it!

On Monday, January 19, 2015 we will have a special 2+ hour South Carolina Issues Panel which should be of great interest to everyone!

Please make every effort to attend the 2015 SCTPC Convention and learn the tools that we all must use to preserve this nation and the FREEDOM it guaranties.

We will have a great lineup of speakers this year, and below are just a few of them.
