

The South Carolina Tea Party Coalition

President Donald J. Trump's "Contract with the American Voter"

QUOTES FROM OUR SPEAKERS

Kevin Shipp

"We are facing a Constitutional crisis in America. Our government is spying on its own citizens, our Congress is bought and paid for by Deep State lobbyists and a Shadow Government, a massive system of secrecy, money and power, is manipulating all three branches of government behind the scenes. Americans have had enough. It's time to stand for freedom."

Josh Bernstein

TV Talk Show Host and National Spokesman for AMAC says, Never before in our history has an event like the South Carolina Tea Party Convention been more necessary and vital to overall political discourse of our Nation. Globalism, Technocracy, and Cultural Marxism are decimating our Republic and crippling our freedoms. But we are fighting back. I intended to share my strategy to take back America with all that will be attending and watching across the country. It is truly an honor and a privilege to stand up for freedom, free speech, and patriotism in South Carolina."

The Tea Party movement was created because people finally woke up to the fact that our elected officials weren't doing the jobs they were supposed to do. They weren't protecting us from things like Obamacare or the weaponization of the IRS. They weren't protecting our borders, and they weren't even protecting our veterans who were dying on VA 'Wait Lists'. The days of being passive and complacent are over. We are HERE, we are ACTIVISTS, and we will never be silent again!

Like the brave patriots who fought for our freedom and liberty long ago, we, the modern day "Tea Party Coalition" are carrying on the fight. We know the importance of our Constitution and we will loudly speak out when the opposition assaults our freedom of speech or tries to inhibit our second amendment rights. America is the beacon of freedom in this world and we will continue to be that shining star because of involved and passionate patriots who proudly believe that we are: "One nation under God, with liberty and justice for all!"

This is a moment of extraordinary peril for the American people. Militant China and Russia are moving against not only their neighbors but also the U.S. Iran and North Korea, proxies of Beijing and Moscow, are developing nuclear weapons and the intercontinental ballistic missiles to deliver them. Yes, dictators, despots, and autocrats are destabilizing the world and threatening America, but they are doing so now because decades of misguided Washington policies have convinced them there is no cost for dangerous conduct.

The South Carolina Tea Party Coalition Convention will be held in January to launch a nationwide message to American First Patriots and others. The goal and mission of the convention is simple but critical to shine the light on our new "Path to Glory". Critical issues will be presented and discussed about the fake news efforts of the media that lie to the American people. The seemingly weak leadership of our Congress will be examined in detail and why many members abandon their campaign promises and ignore the will of the people. You will not want to miss this opportunity to get the inside information. Sign up now and we will see you there.

The Tea Party movement has been instrumental in fighting for liberty in our modern era. Many elected officials have failed American citizens because they have gotten too comfortable, neglected their duties, and have forgotten the very people who hired them. It's government's role to secure our rights, not run our lives. Patriots all across this country have banded together to become a strong voice against government abuse and tyranny. We are here as our nation's conscience, to sound the alarm when politicians move us off track from our Constitutional framework.

Thanks again for including me in your line up. Your conventions are always powerful. My speech is "A Law And Order President" . "Today, in the USA, we are seeing a major breakdown in law and order. It began eight years ago with the Obama administration refusing to enforce laws that protect our national security. Today, it has devolved to the point where masked thugs are attacking patriotic Americans while police do nothing. Thank God above that we now have a president who believes in diligently enforcing all laws, regardless of politics." Here are some things we must do to help him...." "I have attended patriotic events all over the USA and the South Carolina Tea

Party Convention is by far the most professional and effective of them all. If you care about the USA, then tune in to this event, or better yet, come join us!"

Daniel Greenfield

"The left has divided America into two countries. It's our mission to beat the left and reunite our nation."

John Guandolo

"The South Carolina Tea Party is an important force in dismantling the Islamic and Marxist networks, reclaiming our nation, and putting freedom back on the offensive where it belongs. Understanding the Threat (UTT) is honored to be a part of this year's convention, and we look forward to giving Patriots tools to empower them to join the fight in deeper ways."

Suzanne Shattuck

"There are few people that deserve the title of leader, and one is President Trump. He charges forward without apology, because his decisions are based on principle. Establishment Republicans, however, give their allegiance to a type of corporate mentality which offers personal and professional gain in exchange for disregarded principles. American patriots are aching for bold leaders, and what resides in that yearning is an immense power waiting to be harnessed."-Suzanne Shattuck

-Lt. Col. Bill Cowan (retired USMC)

“Joe, congratulations for once more putting together a world class event. Your tireless efforts pay great dividends for America – educating, informing, and activating us to maintain the core principles which make our country the best on earth!”

Trevor Loudon

The election of President was a reprieve. It was probably our last chance to save this country from tyranny. We'd better make the most of it. America is now beset by foreign enemies - Russia, China, North Korea, Iran, Venezuela, Cuba, Vietnam , and much of the islamic world. However these foreign enemies would be far less dangerous if America was not so badly infiltrated by the socialists, communists and Muslim Brotherhood operatives. At least 100 Congressmen and more 20 Senators would struggle to pass a low level FBI background check. Most of them would not qualify to drive a school bus, yet they serve on top level committees in the House and the Senate. These leaders are subject to know security clearances at all. America needs to get serious about internal security if this Republic is to survive.
